

The Do-Not-Call list has greatly improved my unnecessary incoming phone calls. I am greatly appreciative of the strict guidelines that are in place in New Jersey. I ask that they remain in place. Before the list, my phone would ring non-stop and mostly during "down time" when I got home from work. I don't like being bothered and would rarely answer my own phone. Now that the list is in place, I don't fear a telemarketer when I answer my phone.
